Trapollo-LLC – Herndon, VA

April 2022 – Dec2022

Scrum Master/Agile Coach

- Achieved the goals of the team by actively driving to the resolution of issues and holding the team accountable for their actions and commitments.
- promoted and empowered a self-organizing and cross-functional team by shielding the team as necessary to establish a trusting and safe environment for raising problems, defining solutions, and committing to milestone deliveries.
- Facilitated meetings and drew out key concerns and issues to ensure the principle of continuous improvement.

- Trained new employees on Agile 101 during their onboarding to blend the Agile mindset into the organizational culture.

Mar 2020 – April 2022

Sentara Medical Group – Alexandria, VA

Scrum Master

- Supported two teams to build software applications following the SDLC including Sentara MDLIVE, consistently delivering customer value.
- Facilitated breakout sessions during PI planning to help my teams understand their features and map out dependencies with other scrum teams.
- Organized and facilitated backlog refinement, sprint planning, daily scrum, sprint reviews, and retrospectives to continuously inspect and adapt toward meeting our Iteration goals as well as our overall PI objectives.
- Facilitated and participated in the Agile Community of Practice(s) and Dojos to help the organization adopt scrum practices while aligning with regulatory expectations.
- Facilitated timely and high-quality delivery through effective team collaboration, decision making, and conflict resolution.
- Worked with RTE and other Scrum Masters, during Scrum of Scrum identifying team gaps, influencing, and sharing positive feedback to drive to enhance continuous learning and improvement.
- Successfully maintained strong team collaboration even with geographically distributed teams. (On-shore and offshore teams).

Wells Fargo, Vienna, VA

Sept 2016 – Mar 2020

Scrum Master

- Successfully guided the software development team through a smooth transition from waterfall to Agile.
- Maintained an open dialogue with Product owner and development team members through recurring one-on-one meetings to coach on Agile best practices and principles to improve efficiency and reduce waste.
- Facilitated dependency management, risk management, and impediment removal for teams.
- Guided software development teams in writing epics and user stories using the INVEST criteria that meet the definition of done.
- Observed team dynamics, recognized strengths and weaknesses of individual team members, and coached team members individually and team members to enforce team members' motivation and improve productivity.
- Encouraged pair programming and code refactoring to minimize technical debt
